Mod VM Flash Slideshow

£15.00

Unlike many Flash galleries, the slideshow content is generated dynamically from the product database. As the administrator you simply configure the module through the module parameters.

Â

There are many options available with this module:-

- choice of featured products, top products, random products or recent products
- selected thumbnail size
- selected categories
- selected duration of slides
- choice of horizontal and vertical layouts for the thumbnails
- choose whether to auto-start show

The products displayed can be filtered according to selected categories. Also they can be filtered according to the current Virtuemart category when the category browse page or the product flypage is being viewed.
